

Johannes' PGP public key

Please use the following PGP public key, if you want to send me encrypted emails or verify my signatures.

Click [here](#) to download the public key with all its signatures from a keyserver (updated daily).

Or "pipe" this webpage through `gpg --import` to add my public key to your keyring.

```
$ curl http://www.jfranken.de/homepages/johannes/j_pgp.en.html | gpg --import
```

```
