

# Johannes' Linux talks

Here I'm publishing bit by bit some

- scripts of my lectures (both performed and planned)
- descriptions, examples and configuration files for my favorite tools.

Please [send me an email](#), if you want me to perform at your site.

The pages are mostly under construction. Your ideas and comments are appreciated, especially those which help me eliminating errors.

## Talks available

So far, the following talks have been published:

- [Apache \(Webserver\)](#)
- [BIND \(Nameserver\)](#)
- [Flypaper-daemon](#) (defending hackers)
